

## Gate Switch Parts Call Out For Norden Accumulators

Here at Norden Mfg, we are continuously looking for ways to improve our products. After receiving calls from great customers like you, regarding problems with the Gate Switch arm collar slipping, in 2021 we decided to re-design all Accumulator Gate Switches for new models. If you are having problems with your older model switches, we do have a Switch Arm Locking Kit #1020510 to help with the problem.

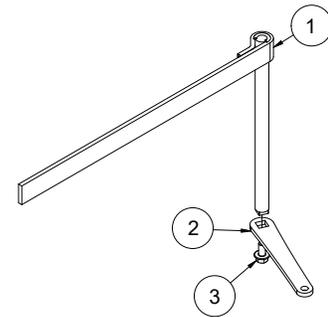

Please contact your dealer or Norden Mfg to order.
